Send Your Application At Once To The Physician's Institute.

They Will Send You Absolutely Free One of Their 100 Guage Supreme Electric Belts, the Belt Which Has Made so Many Wonderful Cures-You Needn't Send Even a Postage Slamp, Just Your Name and Address.

Seven years ago the State of Illinois grantod to the Physicians' Institute of Chicago a charter.

There was need of something above the ordinary method of treatment for chronic diseases, something more than any one specialist or any number of specialists acting independently could do, so the State itself, under the powers granted it by its general laws, gave the power to the Physicians' Institute to furnish to the sick such help as would make them well and strong. Ever since its establishment this Institute has endeavored in every possible way to carry out the original purposes of its establishment under the beneficient laws of the State.

Three years ago, the Physicians' Institute, realizing the value of electricity in the treatment of certain phases of disease, created under the superintendence of its staff of specialists an electric belt, and this belt has been proved to be of great value as a curative agent. From time to time it has been improved until it reached that stage of perfection which warranted its present name of "Supreme."

This belt is the most effective of all agents in the cure of rhoumatism, lumbago, lume back, nervous exhaustion, weakened or lost vital functions, varicocele, kidney disorders and many other complaints.

This "Supreme Electric Belt" is made in one grade only—100 guage—there is no better electric belt made and no better belt can be made. Whenever in the opinion of our staff of specialists the wonderful curative and revitalizing forces of electricity will curative and revitalizing forces of electricity to the payment of one cent. in the play.

The Palm Gafe was tastefully decorated for the occasion, the tables being arranged to represent a Masonic emblem, the plomb. The banquet hall, when filled with the guests in stage costumes,

presented a brilliant scene.

The wants of the inner man had been anticipated by Captain J. W. Sumpter, the genial manager of the cafe, and a spread fit not only for angels, but for our own fair ladies, was served. Mrs. B. M. Junkin, Mrs. C. H. Schaef-fer, Mrs. C. W. Sumpter and Mr. R. I. Roop and Judge Plerce also entertained friends at the cafe after the play. The occasion was one of the most enjoyable of the season.
